

# TRANSITIONS OF CARE

POST-MSN CERTIFICATE AND SPECIALTY EMPHASIS WITHIN MSN PROGRAM

## Program Overview

Transitions of Care is an emerging field within the healthcare industry that directly benefits patients as they transition from one level of care to another and improves healthcare efficiency and cost-effectiveness.

Get in on the ground floor of this rapidly expanding field in healthcare with the only program of its kind in Southern California, offered by California State University San Marcos. This program includes a specialty emphasis in Transitions of Care Management within the Clinical Nurse Specialist (CNS) track of the Master of Science in Nursing (MSN) program and a Post-MSN Certificate in Transitions of Care Management for CNS students.

## Career Pathways

- Nurse Case Manager/Care Manager
- Nurse Educator
- Care Coordinator
- Care Transitions Coach
- Discharge Planner
- Resource Nurse
- Nurse Supervisor/Patient Flow
- Nurse Manager

## Benefits

- Provides relevant, advanced nurse training that reduces healthcare costs and improves quality and timeliness of care
- Prepares nurses for employment in value-based, accountable care organizations
- Trains nurses to work collaboratively with other professions and demonstrate the clinical skills important to caring for patients with multiple chronic conditions
- Is designed for working professionals to be completed on a part-time basis
- Employs a hybrid format with online and face-to-face instruction
- Offers a preceptorship in a healthcare organization in San Diego, Riverside or Imperial Counties
